SUBJECT INDEX

Abattoir
The behaviour of young Friesian bulls during social re-grouping at an abattoir. Influence of an overhead electrified wire grid 233
Abomasal damage
Behaviour and abomasal damage in individual veal calves 257
Aggressive disturbance
Control of excessive aggressive disturbance in a heterogeneous troop of rhesus monkeys (short communication) 371
Agonistic behaviour
Different methods of grouping and their effects on the agonistic behaviour of sows (abstract) 389
Anxiety
Behaviour and abomasal damage in individual veal calves 257
Artificial prey
Artificial prey as behavioral enrichment devices for felines 31
Audience effect
The influence of zoo visitors on the behaviour of captive primates 19
Aversion learning
Food aversion learning in lambs with or without a mother: discrimination, novelty and persistence 327
Avoidance behavior
Relationships between heart rates and behavior of goats in encounters with people (short communication) 363
Behavioral changes
Domestication and the behavior-genetic analysis of captive populations 91
Behavioral integration
Behavior and development in offspring from interspecies embryo transfer: theoretical issues 105
Behavior-genetic analysis
Domestication and the behavior-genetic analysis of captive populations 91
Boar-component stimuli
An investigation of the roles of boar-component stimuli in the expression of proceptivity in the female pig 287
Breeding programmes
Hand-rearing of exotic birds and their re-introduction to groups (abstract) 385
Bruising
The behaviour of young Friesian bulls during social re-grouping at an abattoir. Influence of an overhead electrified wire grid 233
Built environment
Post-occupancy evaluation in the zoo 5
Calves
Behaviour and abomasal damage in individual veal calves 257
Calving
The effects of human presence at the time of calving of primiparous cows on their subsequent behavioural response to milking 247
Captivity
Domestication and the behavior-genetic analysis of captive populations 91

The application of the science of animal behaviour to the zoo and the ethics of keeping animals in captivity 1
Cattle
Behaviour and abomasal damage in individual veal calves 257
Electronic clocks for measuring grazing time of free-ranging cattle: a comparison with vibracorders and visual observations (short communication) 349
The behaviour of young Friesian bulls during social re-grouping at an abattoir. Influence of an overhead electrified wire grid 233
The effects of human presence at the time of calving of primiparous cows on their subsequent behavioural response to milking 247
Cetacea
Management and behaviour of dolphins (abstract) 385
Colts
Play development in Welsh pony (*Equus caballus*) foals 119
Communication problems
A plea for precision in describing observational methods 205
Comparative psychology
Zoos as teaching aids for the comparative psychology course 83
Conservation
Conservation as a moral justification for zoos (abstract) 387
Environmental design and management of zoo animals (abstract) 383
Coturnix coturnix japonica
Studies on the relationship between fearfulness and egg quality traits in Japanese quail (abstract) 389
Dawn
A case for dawn and dusk for housed livestock (Letter to the Editor) 379
Diet learning
Diet learning by domestic ruminants: theory, evidence and practical implications 211
Dolphins
Management and behaviour of dolphins (abstract) 385
Domestic fowl
Nests and nesting in the domestic fowl: which is the reward? (abstract) 388
Some investigations into motivation in the domestic fowl (abstract) 387
Dominance
The influence of social factors on the use of shade by sheep 143
Dominance relationships
Control of excessive aggressive disturbance in a heterogeneous troop of rhesus monkeys (short communication) 371
Dusk
A case for dawn and dusk for housed livestock (Letter to the Editor) 379
Dust-bathing
Short-term feather maintenance as a function of dust-bathing in laying hens 197
Educational facilities
The behavioral research program at the Washington Park Zoo 57
Zoos as teaching aids for the comparative psychology course 83
Egg production
Preference of turkey hens for nest-boxes of different levels of interior illumination 341
Egg quality
Studies on the relationship between fearfulness and egg quality traits in Japanese quail (abstract) 389

Electrified wire grid
The behaviour of young Friesian bulls during social re-grouping at an abattoir. Influence of an overhead electrified wire grid 233
Electronic clocks
Electronic clocks for measuring grazing time of free-ranging cattle: a comparison with vibracorders annd visual observations (short communication) 349
Embryo transfer
Behavior and development in offspring from interspecies embryo transfer: theoretical issues 105
Enrichment devices
Artificial prey as behavioral enrichment devices for felines 31
Environmental constraints
Environmental constraints on lizard foraging behaviour (abstract) 384
Environmental design
Environmental design and management of zoo animals (abstract) 383
Post-occupancy evaluation in the zoo 5
Environmental enrichment
Environmental enrichment for captive primates and foxes (abstract) 383
Equus caballus
Play development in Welsh pony (*Equus caballus*) foals 119
Ethics
The application of the science of animal behaviour to the zoo and the ethics of keeping animals in captivity 1
Evolution
Zoos as teaching aids for the comparative psychology course 83
Ewes
The influence of ram mating preferences and social interaction between rams on the proportion of ewes mated at field joining 173
Exotic birds
Hand-rearing of exotic birds and their re-introduction to groups (abstract) 385
Fearfulness
Studies on the relationship between fearfulness and egg quality traits in Japanes quail (abstract) 389
Feather maintenance
Short-term feather maintenance as a function of dust-bathing in laying hens 197
Feeding
The learning behaviour of sheep when introduced to wheat. II. Social transmission of wheat feeding and the role of the senses 163
Felines
Artificial prey as behavioral enrichment devices for felines 31
Field mating
The influence of ram mating preferences and social interaction between rams on the proportion of ewes mated at field joining 173
Fillies
Play development in Welsh pony (*Equus caballus*) foals 119
Foals
Play development in Welsh pony (*Equus caballus*) foals 119
Food
Diet learning by domestic ruminants: theory, evidence and practical implications 211
Food acceptance
The learning behaviour of sheep when introduced to wheat. I. Wheat acceptance by sheep and the effect of trough familiarity 157

Food aversion learning
Food aversion learning in lambs with or without a mother: discrimination, novelty and persistence 327
Food competition
Ethological investigations on a herd of plains zebra in a safari park: time-budgets, reproduction and food competition 45
Foraging behaviour
Environmental constraints on lizard foraging behaviour (abstract) 384
Foxes
Environmental enrichment for captive primates and foxes (abstract) 383
Free-ranging cattle
Electronic clocks for measuring grazing time of free-ranging cattle: a comparison with vibracorders and visual observations (short communication) 349
Free-ranging domestic pigs
Behaviour during nest leaving in free-ranging domestic pigs (short communication) 355
Friesian bulls
The behaviour of young Friesian bulls during social re-grouping at an abattoir. Influence of an overhead electrified wire grid 233
G.D.R.
Zoo behaviour science in the Research Centre of Vertebrate Studies of the Academy of Sciences of the German Democratic Republic (in the Animal Park of Berlin) 67
Goats
Relationships between heart rates and behavior of goats in encounters with people (short communication) 363
Grazing time
Electronic clocks for measuring grazing time of free-ranging cattle: a comparison with vibracorders and visual observations (short communication) 349
Grouping
Different methods of grouping and their effects on the agonistic behaviour of sows (abstract) 389
Handling
The effects of human presence at the time of calving of primiparous cows on their subsequent behavioural response to milking 247
Hand-rearing
Hand-rearing of exotic birds and their re-introduction to groups (abstract) 385
Heart rates
Relationships between heart rates and behavior of goats in encounters with people (short communication) 363
Herbivores
Diet learning by domestic ruminants: theory, evidence and practical implications 211
Housed livestock
A case for dawn and dusk for housed livestock (Letter to the Editor) 379
Human presence
Relationships between heart rates and behavior of goats in encounters with people (short communication) 363
The effects of human presence at the time of calving of primiparous cows on their subsequent behavioural response to milking 247
Illumination
Preference of turkey hens for nest-boxes of different levels of interior illumination 341
Immunological data
An examination of behavioral, immunological and productive traits in four management systems for sows and piglets 269

Interspecies embryo transfer
Behavior and development in offspring from interspecies embryo transfer: theoretical issues 105
Japanese quail
Studies on the relationship between fearfulness and egg quality traits in Japanese quail (abstract) 389
Lambs
Food aversion learning in lambs with or without a mother: discrimination, novelty and persistence 327
Teat-seeking behaviour in newborn lambs. I. Evidence for the influence of maternal skin temperature 301
Teat-seeking behaviour in newborn lambs. II. Evidence for the influence of the dam's surface textures and degree of surface yield 315
Learned food aversions
Food aversion learning in lambs with or without a mother: discrimination, novelty and persistence 327
Learning behaviour
The learning behaviour of sheep when introduced to wheat. I. Wheat acceptance by sheep and the effect of trough familiarity 157
The learning behaviour of sheep when introduced to wheat. II. Social transmission of wheat feeding and the role of the senses 163
Light intensity
Preference of turkey hens for nest-boxes of different levels of interior illumination 341
Lipids
Short-term feather maintenance as a function of dust-bathing in laying hens 197
Livestock production
Diet learning by domestic ruminants: theory, evidence and practical implications 211
Lizards
Environmental constraints on lizard foraging behaviour (abstract) 384
Macaca mulatta
Control of excessive aggressive disturbance in a heterogeneous troop of rhesus monkeys (short communication) 371
Management
Management and behaviour of dolphins (abstract) 385
Zoo behaviour science in the Research Centre of Vertebrate Studies of the Academy of Sciences of the German Democratic Republic (in the Animal Park of Berlin) 67
An examination of behavioral, immunological and productive traits in four management systems for sows and piglets 269
Maternal deprivation
Maternal deprivation, experiments in psychology: A critique of animal models (book review) 391
Maternal influence
Food aversion learning in lambs with or without a mother: discrimination, novelty and persistence 327
Maternal skin temperature
Teat-seeking behaviour in newborn lambs. I. Evidence for the the influence of maternal skin temperature 301
Mating preferences
The influence of ram mating preferences and social interaction between rams on the proportion of ewes mated at field joining 173

Milking
The effects of human presence at the time of calving of primiparous cows on their subsequent behavioural response to milking 247
Monkeys
Control of excessive aggressive disturbance in a heterogeneous troop of rhesus monkeys (short communication) 371
Moral justification
Conservation as a moral justification for zoos (abstract) 387
Mother-young interactions
Behaviour during nest leaving in free-ranging domestic pigs (short communication) 355
Motivation
Some investigations into motivation in the domestic fowl (abstract) 387
Nest-boxes
Preference of turkey hens for nest-boxes of different levels of interior illumination 341
Nesting
Nests and nesting in the domestic fowl: which is the reward? (abstract) 388
Nest leaving
Behaviour during nest leaving in free-ranging domestic pigs (short communication) 355
Newborn lambs
Teat-seeking behaviour in newborn lambs. I. Evidence for the influence of maternal skin temperature 301
Teat-seeking behaviour in newborn lambs. II. Evidence for the influence of the dam's surface textures and degree of surface yield 315
Novel foods
The learning behaviour of sheep when introduced to wheat. I. Wheat acceptance by sheep and the effect of trough familiarity 157
The learning behaviour of sheep when introduced to wheat. II. Social transmission of wheat feeding and the role of the senses 163
Oryctolagus Cuniculus
Spacing behaviour of free-ranging domestic rabbits, *Oryctolagus cuniculus L.* 185
Physiological response
The effects of design of individual stalls on the social behaviour and physiological responses related to the welfare of pregnant pigs 133
Piglets
An examination of behavioral, immunological and productive traits in four management systems for sows and piglets 269
Suckling behaviour of piglets half of whose littermates have been removed (abstract) 386
Pigs
An examination of behavioral, immunological and productive traits in four management systems for sows and piglets 269
An investigation of the roles of boar-component stimuli in the expression of proceptivity in the female pig 287
Behaviour during nest leaving in free-ranging domestic pigs (short communication) 355
Different methods of grouping and their effects on the agonistic behaviour of sows (abstract) 389
The effects of design of individual stalls on the social behaviour and physiological responses related to the welfare of pregnant pigs 133
Plains zebra
Ethological investigations on a herd of plains zebra in a safari park: time-budgets, reproduction and food competition 45

Play development
Play development in Welsh pony (*Equus caballus*) foals 119
Poisonous plants
Food aversion learning in lambs with or without a mother: discrimination, novelty and persistence 327
Ponies
Play development in Welsh pony (*Equus caballus*) foals 119
Post-occupancy evaluation
Post-occupancy evaluation in the zoo 5
Poultry
Nests and nesting in the domestic fowl: which is the reward? (abstract) 388
Preference of turkey hens for nest-boxes of different levels of interior illumination 341
Short-term feather maintenance as a function of dust-bathing in laying hens 197
Some investigations into motivation in the domestic fowl (abstract) 387
Precision
A plea for precision in describing observational methods 205
Pregnancy
The effects of design of individual stalls on the social behaviour and physiological responses related to the welfare of pregnant pigs 133
Prey
Artificial prey as behavioral enrichment devices for felines 31
Primates
Environmental enrichment for captive primates and foxes (abstract) 383
The influence of zoo visitors on the behaviour of captive primates 19
Primiparous cows
The effects of human presence at the time of calving of primiparous cows on their subsequent behavioural response to milking 247
Proceptivity
An investigation of the roles of boar-component stimuli in the expression of proceptivity in the female pig 287
Psychology
Zoos as teaching aids for the comparative psychology course 83
Quail
Studies on the relationship between fearfulness and egg quality traits in Japanese quail (abstract) 389
Rabbits
Spacing behaviour of free-ranging domestic rabbits, *Oryctolagus cuniculus L.* 185
Rams
The influence of ram mating preferences and social interaction between rams on the proportion of ewes mated at field joining 173
Range management
Diet learning by domestic ruminants: theory, evidence and practical implications 211
Re-grouping
The behaviour of young Friesian bulls during social re-grouping at an abattoir. Influence of an overhead electrified wire grid 233
Re-introduction
Hand-rearing of exotic birds and their re-introduction to groups (abstract) 385
Reproduction
Ethological investigations on a herd of plains zebra in a safari park: time-budgets, reproduction and food competition 45

Research papers
A plea for precision in describing observational methods 205
Research programmes
The behavioral research program at the Washington Park Zoo 57
Zoo behaviour science in the Research Centre for Vertebrate Studies of the Academy of Sciences of the German Democratic Republic (in the Animal Park of Berlin) 67
Rhesus monkeys
Control of excessive aggressive disturbance in a heterogeneous troop of rhesus monkeys (short communication) 371
Ruminants
Diet learning by domestic ruminants: theory, evidence and practical implications 211
Safari parks
Ethological investigations on a herd of plains zebra in a safari park: time-budgets, reproduction and food competition 45
Sensory perceptions
The learning behaviour of sheep when introduced to wheat. II. Social transmission of wheat feeding and the role of the senses 163
Shade
The influence of social factors on the use of shade by sheep 143
Sheep
Food aversion learning in lambs with or without a mother: discrimination, novelty and persistence 327
The influence of ram mating preferences and social interaction between rams on the proportion of ewes mated at field joining 173
The influence of social factors on the use of shade by sheep 143
The learning behaviour of sheep when introduced to wheat. I. Wheat acceptance by sheep and the effect of trough familiarity 157
The learning behaviour of sheep when introduced to wheat. II. Social transmission of wheat feeding and the role of the senses 163
Teat-seeking behaviour in newborn lambs. I. Evidence for the influence of maternal skin temperature 301
Teat-seeking behaviour in newborn lambs. II. Evidence for the influence of the dam's surface textures and degree of surface yield 315
Skin temperature
Teat-seeking behaviour in newborn lambs. I. Evidence for the influence of maternal skin temperature 301
Slaughter
The behaviour of young Friesian bulls during social re-grouping at an abattoir. Influence of an overhead electrified wire grid 233
Social behaviour
The effects of design of individual stalls on the social behaviour and physiological responses related to the welfare of pregnant pigs 133
Social factors
The influence of social factors on the use of shade by sheep 143
Social interaction
The influence of ram mating preferences and social interaction between rams on the proportion of ewes mated at field joining 173
Social learning
The learning behaviour of sheep when introduced to wheat. II. Social transmission of wheat feeding and the role of the senses 163

Social relationships
Spacing behaviour of free-ranging domestic rabbits, *Oryctolagus cuniculus L.* 185
Sows
An examination of behavioral, immunological and productive traits in four management systems for sows and piglets 269
An investigation of the roles of boar-component stimuli in the expression of proceptivity in the female pig 287
Different methods of grouping and their effects on the agonistic behaviour of sows (abstract) 388
Spacing behaviour
Spacing behaviour of free-ranging domestic rabbits, *Oryctolagus cuniculus L.* 185
Stall design
The effects of design of individual stalls on the social behaviour and physiological responses related to the welfare of pregnant pigs 133
Stereotypies
Behaviour and abomasal damage in individual veal calves 257
Stimuli
An investigation of the roles of boar-component stimuli in the expression of proceptivity in the female pig 287
Suckling behaviour
Suckling behaviour of piglets half of whose littermates have been removed (abstract) 386
Surface textures
Teat-seeking behaviour in newborn lambs. II. Evidence for the influence of the dam's surface textures and degree of surface yield 315
Surface yield
Teat-seeking behaviour in newborn lambs. II. Evidence for the influence for the dam's surface textures and degree of surface yield 315
Survival
An examination of behavioral, immunological and productive traits in four management systems for sows and piglets 269
Teat-seeking
Teat-seeking behaviour in newborn lambs. I. Evidence for the influence of maternal skin temperature 301
Teat-seeking behaviour in newborn lambs. II. Evidence for the influence of the dam's surface textures and degree of surface yield 315
Temperature
Teat-seeking behaviour in newborn lambs. I. Evidence for the influence of maternal skin temperature 301
The influence of social factors on the use of shade by sheep 143
Texture
Teat-seeking behaviour in newborn lambs. II. Evidence for the influence of the dam's surface textures and degree of surface yield 315
Time budgets
Ethological investigations on a herd of plains zebra in a safari park: time-budgets, reproduction and food competition 45
Troop aggression
Control of excessive aggressive disturbance in a heterogeneous troop of rhesus monkeys (short communication) 371
Trough familiarity
The learning behaviour of sheep when introduced to wheat. I. Wheat acceptance by sheep and the effect of trough familiarity 157

Turkey hens
Preference of turkey hens for nest-boxes of different levels of interior illumination 341
Veal calves
Behaviour and abomasal damage in individual veal calves 257
Vertebrates
Zoo behaviour science in the Research Centre for Vertebrate Studies of the Academy of Sciences of the German Democratic Republic (in the Aminal Park of Berlin) 67
Vibracorders
Electronic clocks for measuring grazing time of free-ranging cattle: a comparison with vibracorders and visual observations (short communication) 349
Visitors
The influence of zoo visitors on the behaviour of captive primates 19
Visual observations
Electronic clocks for measuring grazing time of free-ranging cattle: a comparison with vibracorders and visual observations (short communication) 349
Vocalizations
Relationships between heart rates and behavior of goats in encounters with people (short communication) 363
Washington Park Zoo
The behavioral research progam at the Washington Park Zoo 57
Welfare
The effects of design of individual stalls on the social behaviour and physiological responses related to the welfare of pregnant pigs 133
Welsh Pony
Play development in Welsh pony (*Equus caballus*) foals 119
Wheat
The learning behaviour of sheep when introduced to wheat. I. Wheat acceptance by sheep and the effect of trough familiarity 157
The learning behaviour of sheep when introduced to wheat. II. Social transmission of wheat feeding and the role of the senses 163
Yield
Teat-seeking behaviour in newborn lambs. II. Evidence for the influence of the dam's surface textures and degree of surface yield 315
Zebra
Ethological investigations on a herd of plains zebra in a safari park: time-budgets, reproduction and food competition 45
Zoos
Environmental design and management of zoo animals (abstract) 383
Artificial prey as behavioral enrichment devices for felines 31
Behavior and development in offspring from interspecies embryo transfer: theoretical issues 105
Conservation as a moral justification for zoos (abstract) 387
Domestication and the behavior-genetic analysis of captive populations 91
Post-occupancy evaluation in the zoo 5
The application of the science of animal behaviour to the zoo and the ethics of keeping animals in captivity 1
The behavioral research program at the Washington Park Zoo 57
The influence of zoo visitors on the behaviour of captive primates 19
Zoo behaviour science in the Research Centre for Vertebrate Studies of the Academy of Sciences of the German Democratic Republic (in the Animal Park of Berlin) 67
Zoos as teaching aids for the comparative psychology course 83
